1. ABOUT US

STAINES INTERNATIONAL GROUP TRADING & CONTRACTING CO. W.L.L was established in 2001. It has grown & accumulated business experience to be one of the leaders for contracting business in Kuwait.

STAINES offers high quality systems and wide range of products related to construction field that meet international standards and specifications.

STAINES continues to respond to the market place with new product lines, and looking always to improve the quality and standards by introducing new systems for metal products and Steel Fabrication and Steel Structure, Fire rated steel doors, stainless steel and galvanized steel hand rails, and all kind of metal works with high standard.

With complicated machine aid and highly trained skilled manpower resources that meet international standard. We of Staines International Group Co is also dedicated in service to public and plant project sector.

STAINES's main activities are focused on development of systems, marketing and technical support of contractors and specifies. Giving the best quality to the customers in order to obtain their satisfactions.

We also recognize the importance of fabrications and installation for the long-term performance of our systems.

Therefore, **STAINES** liaise daily with a strong international network of systems suppliers who are providing a technical training and a range calculation, drawing and manufacturing software package.

1. ABOUT US

We Make the Best

Honesty	Honesty is our competitive strength.		
Creative Thinking	Creative thinking would change the whole world.		
Harmonious Mind	A little consideration bears a great pleasure.		
Individual Responsibility	Responsibility of one person would bring a life-time customer.		
Passion For Job	Passion is a key to the success.		
Challenging Dreams	Only a challenger has a brighter future		

STAINES is one of the Registered & Authenticated Supplier with KNPC

2- PRODUCT OVERVIEW

A. STEEL FABRICATION

STAINES is specialized for fabrication of all kind of steel and metal works as required by project's Specification.

STAINES supplied materials are complying with International standard requirements and a Hot-Dip galvanized certification with BS-EN-ISO-1461 & ASTM A123

- Embedded Plate with Anchor Bolt
- Steel Angle (L- Shape, T-Shape etc.)
- Dowel Bar, Grating Cover
- Checker Plate
- Ladder with safety cage
- Handrails (at any shape)
- Metal Plate, Angle Brackets
- Metal Beam Support
- I-beam, H-beam, T-beam, C-beam etc.,

B. STRUCTURE FABRICATION

STAINES is specialized for Fabricate & Erect the steel structure works as below: -

- Heavy Structure: Building, Rack, Pier, Ladder/ Plate form, Tower etc.
- Tanks: Fuel, Storages, Water
- ➢ Pipeline: Oil, Water, A/C etc.
- Pressure Vessel Part: Skirt, External etc.
- Monopole Tower: For Telecommunication
- Ducting Fabrication: For Cement Factory etc.
- Scaffolding Plates Production
- Canopy
- Stainless Steel Tank, Pipeline Fabrication

3. Machine Shop Precession

STAINES Machine shop is equipped with its precession machinery mainly operates as support for fabrication shop, providing necessary services in machining jig & fixtures, dies, roller and spare parts to maintain fabrication.

These functions, the machine shop with its technical expertise and quality workmanship makes all types and sizes of anchor bolts, standard bolts, flanges, shafts etc.

STAINES measure our success by our ability to build long term client relationship and contribute to their long term success.

3. Machine Shop Precession

STAINES Machine Shop Facilities:-

- Lathe Machine
- Milling Machine
- Shaping Machine
- Cutting Machine
- Bending Machine
- Sheet Rolling Machine
- Drilling Machine
- Aluminium & Electric Welding
- Argon Welding

WATER JECT CUTTING SERVICE

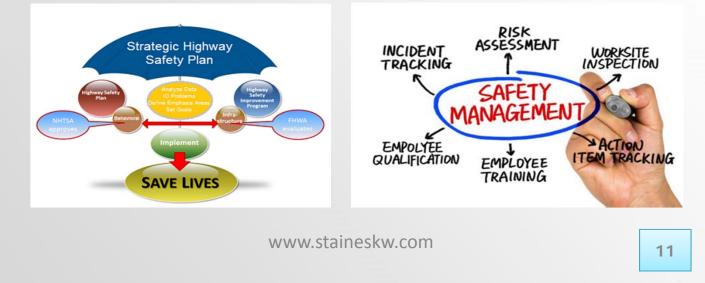

4. SAFETY POLICY

- To archive an injury free and accident free atmosphere for the personnel both in the factory and the project sites.
- By convincing staff that accidents are caused and that they do not just occur and that it is possible to prevent them.
- Educating the personnel in safe working methods.
- By enforcing strictly all safe working practices.
- By seeing that all personnel use safety equipment like hard hats, safety belts, gloves, goggles, masks, face shields, ear muffles, safety etc while working.
- By seeing that the equipment supplied to them is of proper standards.
- By using proper scaffolds and ladders when working at heights.
- By educating them about the inbuilt hazards in the nature of the work while they are engaged in working with hazardous media.
- Educating them about environmental issues.

5. SAFETY PROGRAM

- Train 2-4 persons in each shift to co-ordinate first aid in case of accident/injury.
- Communicate safe working practices to all personnel.
- Train personnel on fire fighting.
- Train personnel to handle any hazardous material
- To maintain all fire fighting equipment and keep them in ready to use condition.
- To keep all fire fighting equipment in their designated places.
- To refill or recondition the fire extinguishers well before their expiry in a phased manner.
- To see that all employees use safety equipment like gloves, shoes, coveralls, helmets, goggles etc regularly.
- To have a periodic health check-up for all personnel.
- To familiarize the safety personnel and safety Head with country's emergency contact numbers and emergency procedures.
- To have an emergency procedure for the company in tune with the country's emergency procedures.

C. STEEL STRUCTURE BUILDING

STAINES offers Steel Structure Buildings, which are manufactured to the highest Quality standards & commitments by the satisfaction of clients.

STAINES has an experience to make the building like Factory Industry, Heavy Yards or Infrastructure, Warehouses, Oil & Gas Shed and Leisure Structures.

PRECAST FACTORY IN SUBIYA – Causeway Project- HYUNDAI

BUILDING DIMENSIONS:

Building-A (320 mtr. Length x 65 mtr. Width x 24 mtr. Height) Building-B (320 mtr. Length x 64 mtr. Width x 24 mtr. Height) Total Area for Building A & B = $38,720 \text{ m}^2$

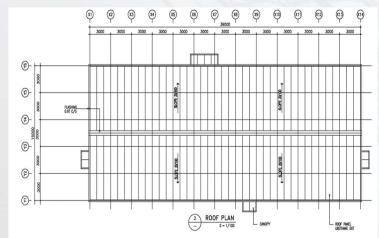

REBAR SHOP : Area #1 (110mtr. Length x 24mtr. Width x 12.8mtr. Height) Area #2 (90 mtr. Length x 16 mtr. Width x 11.7 mtr. Height) Total Area = 4,080 m²

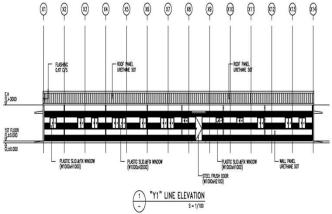

D. SITE OFFICE AND ACCOMODATION

STAINES offers Temporary Site facilities, which are manufactured to the highest Quality standards & commitments by the satisfaction of clients

E. CHAIN LINK FENCE

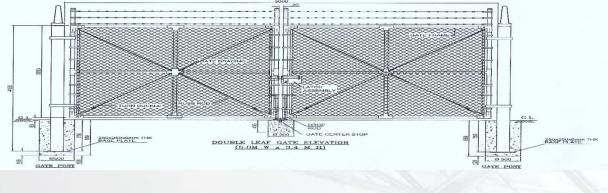

STAINES Supply and Install PVC Coated & Galvanized Fence with different style & Specification which already approve on all standard. Custom orders with different width and length is also welcome. We Offers all kinds of Wire Mesh Fence Gate, Single or Double Leaves Gate. We Offers Welded Wire Mesh in Galvanized Iron, Stainless Steel or PVC Coated Wire & Corrugated fence. Our fence experience ranges from all phases of residential fence construction to the most difficult and specification-based industrial security fencing applications, including sport stadiums, power plants, and high security airport fence jobs. We've fenced in buildings, inside of buildings, on roofs, in fresh and saltwater. Our full fabrication shop, experienced staff, wide range of standard and specialty fence parts inventory, and long-standing relationships with top fence manufacturers, makes Staines International an ideal supplier and installer for all fencing projects.
